of Fame in the Way. WASHINGTON, September &-Accord ing to Dr. D. Percy Hickling, of this ity, who has just returned to Washingon from Europe, and who lunched with

Admiral Dewey at Leghorn, the troubles from which the cartoonists have represented the Admiral as suffering in consequence of his popularity are real.

Dr. Hickling and his wife were shown Or. Hickling and his wife were shown one of the presents which have been lay-shed on the Admiral by his countrymen, a heautiful loving cup, with three handles and a tank inside big enough to hold bree or four quarts. On one side, between the handles, is a figure of fame, with arms outstretched. The whole party sidnired it, but the Admiral watched them with a fatigued expression. "Take

en everybody had used up the English guage in praising it.

"Hickling bravely seized the cup and of to follow the Admiral's advice, only be smitten on the right cheek by the stretched fist of Fame. He turned the er cheek, in Scriptural fashion, with same result. One after another of party tried to drink out of the tanzing vessel, which was twisted and ned in every direction, but the ingesty of the whole party was inequal to ising any attitude in which the pugi-

nuity of the whole party was anequal to devising any attitude in which the puglishe propensities of Fame could be avoided. Finally, they gave it up.

This cup was presented by the enthusiastic people of a western city. How many similar exasperating tributes of affection the Admiral has he did not say. Dr. Hickling says Admiral Dewey is looking forward to his return with a school-boy's eagerness, but with a real dread of the festivities in which he is to play the leading part. Perhaps he fears more misdirected efforts of patriotism like the western loving cup. western loving cup.

The fortune turned over to this charitable use was known there-after as the Baron Hirsch Fund.

Oscar S. Straus, former Minister to Turkey, was selected in 1897 to distribute \$1,800,000 that the Baroness Hirsch, then a widow, decided to give to charitable institutions in this country. Of this im-mense sum \$1,000,000 went to the Baror Hirsch Fund. An Interesting Case Involving Con

victs-North Carolina Items. RALEIGH, N. C., September 8 .- (Special.)-An interesting and important case was heard here at Chambers yesterday Mahon (white) was convicted of murder in Macon county and sentenced to be hanged. Governor Fowle commuted the sentence to life imprisonment. Gover

nor Russell commuted it to twelve years, The claim was made by McMahon that twelve years expired yesterday, if his od-conduct time was deducted, on the is of five days in a month.

He also claimed commutation money or good conduct at the rate of \$6 a year The penitentiary authorities authorized this, and contended that the act of 1899, allowing five days and \$6 a year was not and could not be retrospective, as Judge Montgomery had decided in another case a few weeks ago. Shepperd & Bushee appeared as counsel for the directors, T. M. Arye and W. J. Peele for Superintendent Day, and J. C. L. Harris for Mc-Mahon.

Justice Montgomery exactly reversed his former ruling in the decision of the case. Counsel for the penitentiary con tended that the section of the Code which governs such cases says the only person to whom the law of commutation for good conduct applies are convicts who and not to those sentenced for life. Montgomery held that this was correct and declined to discharge McMahon. MISCELLANY.

Four more cases of splenic-fever have been found near here on a cattle farm.

Passing cattle from tick-infected counties communicated the disease, as they went along the road by the farm.

Francis H. Cameron, Jr., son of ex-Adjutant-General Cameron, formerly of Raleigh, now of Richmond, has obtained lieutenancy in the volunteers. Your correspondent yesterday morning an interview with Senator Travis, of says as soon as the money is paid for the bonds the Caledonia farm will be bough; that it costs only \$8.50 an acre, while the legislative committee reported it as worth \$20 an acre; that the State has spent over \$100,000 on it, and can sell it at an

advance of 100 per cent.

Some time ago the penitentiary direc tors adopted a resolution to buy the An-son farm, and it may be purchased later The directors appointed the Executive Board and Superintendent Day a commit-tee to investigate the charges of crucity by Supervisor Summerili to the convicts who were frost-bitten. As yet that committee has not reported. It has taken all the evidence. It had the matter up yesterday, but as Mr. Newland, of the board, was not here, it was deferred. The Penitentiary Board has very little Captain

in minor matters. Captain vented a great deal from being done which would have crippled the penitentiary for twenty years. Travis

There has for a long time been to good blood' between him and Travis, the chair man of the board. Day is the "boss," ansays he will stand on the act of 1857 which gave him absolute power. The Executive Board and all the other Democratic directors ought to resign at one now. They see, or certainly most of then do, that they erred in not resigning long ago. Governor Russell has employed ex-Judge Augustus S. Moore, of Greenville, to ald Solicitor Daniel in prosecuting James Sears, the ex-overseer, who is charged with beating a convict to death. The accused is to be tried in Northampton county. His lawyers got a postponement of the case this week on the ground that public feeling was too strong against their client.

STOCKS IRREGULAR.

MARKET MUCH AFFECTED BY BRI-

TISH-BOER WAR RUMORS.

TIGHTNESS OF MONEY UNRELIEVED. A Further Decline in Surplus Reserves in To-Day's Bank Statement a Foregone Conclusion-

Wheat Heavy.

NEW YORK, September & Considerable stock was thrown upon the market to-day, as a result of the fears of war between Great Britain and the Transvaal, and the condition of the local money market was a continued cause of uneasiness. The market took the offerings very well, and so no very wide breeches were made in prices. First prices of a number of the Intenationals were the lowest of the day, notably Kansas and Texas, preferred, and Norfolk and Western, preferred, which fell 13-8 and 1, respectively. Declines were not down to the London parity as a rule, and vigorous support was forthcoming at the dedine. Kansas and Texas, preferred, and Norfolk and Western, preferred, recovered their losses, and there was a rally all

Near noon there was renewed weakness on the circulation of alarmist rumors regarding the outcome of the British Cabinet meeting. The general level of prices fell lower than on the first dip. There was a movement to cover short contracts when authentic reports were received of the better feeling engendered in London after the Cabinet meeting. About the same time Manhattan was taken in hand and marked up over 2 points. Metropolitan Street Railway, Sugar, and Brooklyn Rapid Transit rose simultaneously. The Rapid Transit rose simultaneously, general level of prices rose a large general level of prices rose a large frac-tion, sufficient in many cases to wipe out earlier losses. Tennessee Coal rose ag-gressively to 117 in the final dealings, and Manhattan touched 118, the Specialties generally showing some response. Pacific Mail suffered a loss of nearly 4 points, on the statement of a decrease in July earnings, but railfed afterwards.

MGNEY STILL TIGHT.

The tightness of the money market was unrelieved. Time loans were held at 5 per cent, and call loans for the most part ranged from 1 up to 6 per cent. The late fall in call loans occurred after the needs of most borrowers had been met, and was without significance. A further decline in surplus reserves in to-morrow's bank statement is a foregone conclusion. The movements of currency by express indicate a net loss to the interior by the banks of considerably over \$5,00,000, and the Sub-Treasury has gained from the banks, including payments for taxes and deposits for telegraphic transfer to the interior, \$5,50,000. No set-off is apparent against this loss of cash of upwards of \$8,500,000. MONEY STILL TIGHT.

Sterling exchange in New York fell a sharp fraction this morning, in spite of higher discount rates in London, but the bankers' rate for demand sterling partly recovered in the afternoon. The recent firmness of sterling exchange is attributed to a demand for bankers' bills to cover short sales made against cotton bills.

No New Outbreak in Venezuela, WASHINGTON, September & Senot

WASHINGTON, September & Senos Pulido, the Charge d'Affaires of Venezuee la last evening, in response to a cable-gram sent by him, received a message from the Foreign Office of Venezuela, saying:

"The news of a new outbreak in Venezuela, published yesterday, is without any foundation."

An outbreak occurred in the interior some time ago, but, as stated at the time, the revolutionists were badly routed, and their forces scattered, and compelled to seek refuge in the mountains.
